

TrajEthos

TrajEthos is an annual online research journal, published in Montreal by *Communalis - Communication and Natural Logic International Society*, that also releases special editions from time to time. It is committed to the dissemination, from different perspectives, of interdisciplinary studies in which the relationships between communication, logic and argumentation, and between these domains and ethics, help us to better understand the world we live in. It is an open international forum whose main goal is one of exploring, discussing and advancing the relationships between discourse, representations and argumentation from theoretical, methodological and empirical viewpoints. **TrajEthos** is particularly interested in communication action-research in which social political action, in the form of intervention theories and methods or discourse and argumentation analysis methods - is central. **TrajEthos** focuses also on discussions involving new media, namely digital networks (Internet).

TrajEthos publishes original scientific articles as well as research reports, interdisciplinary studies, book reviews, interviews and other scholarly production on contemporary transversal themes, viewpoints, and debates, in both official languages of Canada - English and French - as well as in other languages. The publication process is based on double blind peer-reviewed procedures.
